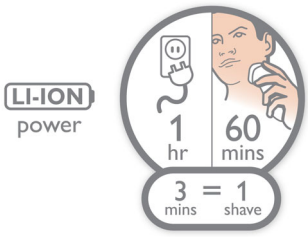
# Highlights

### Aquatec wet & dry

The Aquatec seal on the shaver makes it 100% waterproof. Use it in the shower with your favourite shaving gel or foam for extra skin protection. Naturally, you can also shave dry for convenience. When you are done, simply pop the heads open and rinse under the tap to easily clean your shaver.

### 60+ Shaving Minutes



An energy-efiicient, powerful lithium-ion battery gives you more shaves per charge. Charge it for an hour, and you'll have up to 60 minutes of shaving time - that's around 20 shaves. The shaver automatically adjusts its power to suit the way you shave, so your actual shaving time may vary. Charge it for 3 minutes and you'll have enough power for one shave.

### Fully waterproof

With QuickRinse system to clean under the tap and can be used under the shower

### Skin protection system

Rounded low-friction protection heads adjust to the curves of your face to limit skin damage.

### Super Lift&Cut Action

The first blade raises each hair while the second blade comfortably cuts below skin level, for really smooth results.

### Pop up trimmer

Complete your look by using the pop up trimmer. Perfect for maintaining a moustache and trimming sideburns.

### Quick charge for 1 shave

3 minute quick charge provides enough power for one shave, so that you are always fast even when the battery is empty

### SmartPivot

Flexing heads stay in close contact with your skin, while the pivoting adds an extra dimension of movement - all giving you a close, fast and comfortable shave.

### TripleTrack blades

TripleTrack blades with 3 shaving tracks cover 50% more skin surface at a time, while comfortably shaving both long hairs and stubble.
